

DIGITAL SYMPOSIUM ON AI FOR INDIA

Building an AI Academic and Research Ecosystem

DAY 1 - HIGHLIGHTS - 26 AUGUST

< The building blocks of an ecosystem are **People, Place and Money** (PPM). >

◀ The interplay of the **right talent** (people), with regards to the **context of the research** (place), that is **well funded** (money), brings together the ecosystem. ▶

The Indian AI ecosystem needs a strong collaboration amongst **academia, industry and governing bodies** to overcome its challenges.

These challenges are related to:
**structuring of varied data,
establishing data sharing
protocols using blockchain,
funding research laboratories &
innovation hubs.**
