

DIGITAL SYMPOSIUM ON **AI FOR INDIA**

AI for Education

DAY 2 - HIGHLIGHTS - 27 AUGUST

Integrating creative thinking with AI
opens up different perspectives –
the process of iterative prototyping
as a concept can be applied across
all sectors.

Early on in the creative process it is important to think broadly and adopt a prototyping mindset to efficiently **deal with aspects that are hard to predict.**

Online learning offers opportunities to dramatically **broaden access to education which** is gaining significance in the times of COVID-19.

A white arrow pointing to the left, positioned to the left of the text box.

However, remote access has its own challenges which can be solved by creating **pedagogical models and systems that leverage the network of peers.**
